

CONFIDENTIAL

PLS 

8 OCT 1980

MEMORANDUM FOR: Chief, Management Staff, DDA

FROM: James H. McDonald
Director of Logistics

SUBJECT: New Communications Requirements for FY 1983 -
FY 1987

REFERENCE: Multiple addressee memo from C/MS/DDA, dtd
11 Aug 80, same subject (DD/A 80-1492;
OL 0 3704)

1. New communications requirements for the Office of Logistics (OL) during the time frame FY 1983 - FY 1987 are attached as requested. Two of the requirements associated with the Logistics Integrated Management System overlap requirements previously submitted in November 1979.

2. The consolidated submission of new communications requirements by the DDA in December 1979, contained an Office of Data Processing (ODP) requirement to increase overall data transmission capabilities. The majority of OL requirements are predicated upon enhancing data transmission capabilities across the board. From that point of view, we want to ensure that our requirements are incorporated in the Office of Communications/ODP planning.

25X1 3. Please contact [redacted] Plans and Programs Staff, OL, extension [redacted] should additional information be required.

Signed: James H. McDonald
